

05793 SIP Autoplus Mini 130 MIG/ARC Synergic Inverter Welder

Part No: 05793

Price: £382.00 (exc VAT) | £458.40 (inc VAT)

Specifications

05793 SIP Autoplus Mini 130 MIG/ARC Synergic Inverter Welder

The SIP Autoplus Mini 130 Synergic MIG/ARC Inverter is a powerful garage-friendly inverter with infinitely variable power adjustment, superior welding arc stability, and Synergic controls.

230v (13A) input supply

Dual function MIG/MMA (ARC) machine

30A - 130A (MIG) / 30A - 115A (MMA) output

130A (MIG) / 115A (MMA) @ 35% duty cycle

Infinitely variable welding power adjustment

Superior welding arc stability; very low spatter

Performs both GAS and GASLESS MIG welding

User-friendly Synergic and easy inverter controls

Low current performance for automotive work

Supplied with the following accessories:

Fixed MIG torch, earth lead/clamp

Electrode lead and electrode holder

Gas hose, gas bottle brackets

Standard Features:

Input Supply 230v (13A)

MIG Output Current 30A - 130A (MIG)

ARC Output Current 30A - 115A (ARC)

Duty Cycle 130A @ 35% (MIG)

115A @ 35% (ARC)

Output Voltage 15.5v - 20.5v (MIG)

21.2v - 24.6v (MMA)

Electrode Size 1.6, 2 , 2.4, 3.2mm

Wire Size 0.8 - 0.9mm

Spool Size 100mm

Insulation Class F

Protection IP21S

Optional Extras

05714 SIP 3 Tier Welding Cart

Part No: 05714
