Specifications

07003 1000A 12v Jump Start Booster Pack

The SIP 1000A 12v Capacitor Booster is an innovative handheld portable device designed to discharge a high current boost needed to start a larger car or van battery.

Offering powerful performance in a compact unit, it is ideal as a safeguard for home users which can be easily stored or as a quick, easy solution for small automotive workshops.

Key Features:

Lightweight capacitor energy cell

90 second preparation 'ready' time for fast boosting capability

Powerful, portable and compact design

Specifications:

Starting Current: 500A

Peak Current: 1000A

Input: > 6v DC

Output: 12v Engine Start

Capacitor Charge Time: 90sec (70Ah battery)

Temperature Range: -40°C to 65°C

Reverse Polarity Protection: Yes

Short Circuit Protection: Yes
