Specifications

09232 SIP Fireball DV125 110/230v Propane Space Heater

The SIP FIREBALL DV125 110v/230v Dual Voltage Propane Space Heater is a powerful and portable dual voltage propane heater with adjustable heat control.

Designed to quickly and effectively heat medium-sized workshops and garage spaces, it also features 110v/230v dual voltage input supply, making it ideal for on-site work areas.

Featuring durable long life components for effective fuel transfer and heat distribution, the FIREBALL DV125 delivers safe and continuous heating.

Key features:

75,000BTU/hr (22kW) to 125,000BTU/hr (36.6kW) variable heat output

Approximate heating area of 910mtr³ (32,500ft³)

Dual voltage 110v/230v input supply for added flexibility

Push-button Piezo ignition for safe, reliable, easy start-up

Supplied with an approved gas regulator and hose

Compact floor-standing design with carry handle

Specifications:

Input Supply: 110v / 230v (13A)

Max. Heat Output: 125,000BTU/hr (36.6kW)

Variable Heat Output: 75,000BTU/hr (22kW) - 125,000BTU/hr (36.6kW)

Approx. Heating Area: 910mtr³ (32,500ft³)

Fuel Type: Propane

Approx. Fuel Consumption: 1.59kg/hr - 2.63kg/hr

Product Dimensions: 370(H) x 215(W) x 500mm(D)
