Specifications

193384 Holts Tyre Weld aerosol can

The innovative solution for emergency puncture repair at the roadside.

Fix your flat tyre in seconds

Saves cost on recovery

Seal the puncture

Fits via the air valve

Easy storage

The Holts HT3YA is a must for all motorists, as this emergency puncture repair is officially approved by the national tyre distribution association.

Be prepared for a puncture as it could happen day, night, motorway or just a quiet back street, so be prepared at all times by carrying Holts Tyre Weld, a quick and simple get you home repair.

No wheel change is necessary just connect to the valve on your vehicle tyre and press the button to fill the tyre with the repair solution.

Tyreweld is suitable for tubeless tyres only. Suitable for Car and Van size tyres.
