Specifications

Stiga BC 760 B Trimmer

The STIGA BC 760 B is a powerful brushcutter, equipped with a 52.8 cc 2-stroke petrol engine.

It features a 45 cm cutting width: the ideal partner to face wildly grown, tall grass.

The innovative EEM (electronic engine management) system makes for easy starting as the engine is electrically controlled, for less energy consumption, less wear and longer performance.

User comfort is guaranteed by a reinforced forestry-style build and a well-balanced motor, producing less vibrations.

The ergonomic bike-style handlebars ensure total comfort and control of the brushcutter, under all conditions.

The new digital display, located on the handle, gives you all needed information about your work and maintenance alerts, so to preserve the quality and efficiency of the machine.

The brushcutter is supplied with a metal tri-arc 255mm 3-point blade and latest-generation Tap&Go dual-line head that quickly releases the 3mm Nylon line by simply tapping the head on the ground.

Double Comfort Harness included

A 5-year manufacturer's warranty is included with this model (T&C's apply). *

We also provide full parts backup, servicing and workshop facilities by our own Mountfield & Stiga trained and accredited staff.

***Warranty Terms & Conditions.**

To maintain the 5 year warranty the mower must be serviced before the end of the first year of ownership and annually thereafter by an authorised Mountfield dealer.

Failure to keep the Mower serviced at these intervals will result in the warranty reverting to a standard warranty period.
