Specifications

Stiga Combi 372 Lawn rider Hydrostatic Transmission

The Combi 372 riding mower is ideal for gardens as a step up from a Push-Mower, handling sharp turns and complex garden designs.

It's small enough to fit through tight gaps, while its narrow turning circle makes it easy to manoeuvre around obstacles.

Plus, its Stiga ST 400 414cc single-cylinder engine, 72cm cutting width and spacious 170l grass collector make it perfect for mowing areas up to 2500sqm.

A flexible cutting system - with a 72cm cut width includes 7 selectable height positions between 30-80mm - lets you choose between collecting, side discharging and mulching, to match the lawn and season.

For a smooth, safe drive, the Combi 372 also features an easy-to-use hydrostatic drive.

Mulching plug and Trailer Hitch included, Battery Charger sold separately.

This Garden Machinery product can be collected in-store or is only available for local
