Specifications

Mountfield 1328H/MTF72 Lawn rider Hydrostatic.

The 1328H/MTF72 is stylish, compact and easy to drive thanks to its simple to use fully hydrostatic transmission.

Powered by a Stiga ST 350 352cc engine, the 1328H/MTF72 makes light work of larger lawns up to 4000m in size.

It is narrow enough to fit through through most garden gates.

The 72cm cutting width blade ensures large areas are quickly cut with clippings being collected in the large rear mounted 170-litre collection bag.

The grass collector can be easily emptied without leaving the driver's seat.

There are seven selectable cutting height positions ranging from 30 – 80mm.

A Mulching Plug is included that allows the grass clippings to be returned to the lawn to aid future growth.

A Battery Charger is available as an optional extra part.

The raised seating position provides superb forward visibility, aiding ease of use.

With a 5 year warranty.*
