

3102 Granville Lockthread 50ml

Part No: 3102

Price: £14.95 (exc VAT) | £17.94 (inc VAT)

Specifications

3102 Granville Lockthread 50ml

Granville Lockthread is a medium strength anaerobic compound which cures in the absence of air to seal metal threads and cylindrical parts and which can be removed with normal hand tools if required.

Features

- * Lockthread bonds and seals threads and retaining cylindrical parts
- * Eliminates the need for spring washers, split pins, wires and other mechanical locking devices
- * Seals threads against leaks and corrosion
- * Seals pipework joints on petrol, oil and hydraulic systems
- * Removable with normal hand tools if required

Lockthread is highly resistant to:

- * Heat
- * Vibration
- * Water
- * Gases
- * Oils
- * Hydrocarbons
- * And many other chemicals
