

Green flexible filler spout 5l

Part No: ASPENFILLERCAP5L

Price: £3.25 (exc VAT) | £3.90 (inc VAT)

Specifications

FILLPARTNER AUTOFILLER

The Fill Partner Autofiller for the Aspen 5 litre can makes refuelling of your machine safe and easy.

The Autofiller protects you and your environment from unnecessary direct contact with the fuel through the unique vapour recovery system.

The complete seal from the can to the tank ensures there is no release of petrol vapours. The fuel vapour from the tank is sucked into the container. When the tank is full, the Autofiller automatically stops refuelling.

The advantages:

- Designed to fit the Aspen 5 litre can
- Rotatable in all positions
- Fits on most tank openings
- Stops automatically when the tank is full
- Unique vapour return system
- No Aspen fuel wasted by spillage
- Solid 100% recyclable plastic
