

LGV95/H152 AHD Rancher Air Seat

Part No: LGV95/H152

Price: £795.00 (exc VAT) | £954.00 (inc VAT)

Specifications

LGV95/H152 AHD Rancher Air Seat 12v (24v compressor version also available please enquire).

****Please ensure you check the bolt mounting holes measurement on the dimensions image against your current seat's mounting holes before ordering.****

Standard features:

Our new low back Tractor Air Seat from United Seats.

Also suitable for fitment to a wide range of Combine Harvesters and other Agricultural vehicle applications.

Featuring a swivel turntable that is useful when engaged in hedging and ploughing work, allowing the seat to be positioned in a more comfortable operating position during these jobs.

With multiple adjustment points, this seat also allows a greater amount of operator comfort to be achieved.

Reduction of operator fatigue makes for safer machine operation and operator welfare.

With a front mounting footprint of only 260mm, it will fit many different vehicles.

The mounting brackets feature a variety of mounting holes which help with ease of fitting.

Mounting brackets as related parts are also available which help reduce the need to drill new seat mounting holes.
