SIMVHT20D Black VHT Paint - 500ml

SIMONIZ Matt Black Very High Temperature (VHT) Paint SIMVHT20D

High temperature areas need special paint which is able to withstand the intense heat. Simoniz Very High Temperature Paint has been specially developed for this use, providing a durable finish on a range of surfaces.

Simoniz Very High Temperature Paint has been developed in the lab and tested in intense heat and on the road to make sure it performs.

It's ideal for painting areas such as exhausts, brake callipers and manifolds.

Guaranteed to protect at temperatures up to 800°C

Ideal for areas of intense heat such as exhausts

Also suitable for boilers, barbecues, stoves and more

Achieve a durable and attractive finish on your high temperature surfaces today with Simoniz Very High Temperature paint.
