

VLC5633 Magnetic Antenna

Part No: VLC5633

Price: £23.28 (exc VAT) | £27.94 (inc VAT)

Specifications

VLC5633 Magnetic Antenna

Magnetic-based weather-proof antenna for use with wireless CabCAM monitors and receivers.

Supplied with 3m of cable. Increases the performance of the wireless system by allowing transmitter and monitor receiver antennas to be effectively positioned on larger commercial and agricultural vehicles.

Helps eliminate signal drop and image interruption due to antenna alignment issues or electrical noise interference.

- NOTE - Magnetic based antenna should be mounted to the top of vehicle.

Ensure there is no obstacle between in-line transmitting and receiving antennas.
