About this item

Ideal for driving and removing large nails

Unique v-shock twin beam girder shaft acts as a damper resulting in reduced shock and vibration further controlled by an air cushioned grip

Power-strike optimised balance design

1 piece construction drop forged, hardened and tempered steel construction ensures maximum strength and safety

Reduced weight in the shaft transfers the centre of gravity towards the head resulting in improved balance and reduced effort

Magnetic nail holder makes for effortless starting particularly in hard to reach areas whilst the mini-claw allows for embedded nails to be removed with ease
