Specifications

XMS24CUTOFF Faithfull 115mm (4.5in) Multi-Cut Discs (10 Tin)

The XMS Multi-Cut Cutting Discs, by Faithfull are one of the best sellers.

Cutting a wide range of materials used in the construction and fabrication industries and at only 1mm thick they are able to provide a fast cutting action with less waste and dust.

This tin of 10 Multi-Cut discs solve the problem of cutting several different materials at once and are ideal for cutting modern-day composite materials used throughout industry.

Will cut sheet metal, stainless steel (inox), pipes and profiles, brick, stone, ceramic tiles and other building materials along with plastics/ PVC.

These versatile discs are available in the three most popular sizes, supplied in a sturdy metal storage tin for safekeeping.
