Specifications

XMS24HEXKEYS Faithfull 9 Piece Colour Coded Hex Key Set

The New XMS 9 Piece Colour Coded Hex Key Set, made by Faithfull, is produced with easy metric size identification in mind.

This new set really is an amazing XMS deal, one not to be missed with this saving.

Professional quality keys are made from S2 stainless steel for excellent impact resistance.

All keys are chamfered to prevent damage to the blade and fitting. The ball end design allows 25 degrees access to deep set screws or difficult to reach places at offset angles.

The colour coded blades allow for easy metric size identification.

This new Faithfull Set comes with a handy storage caddy so it can be stored safely in both pockets

and toolboxes.

The Faithfull 9 Piece metric set consists of:

Sizes: 1.5mm, 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 8mm and 10mm.
