### Specifications

XMS24LIGHT Lighthouse Rechargeable 10W Worklight

The New and Exclusive XMS Rechargeable 10W Worklight and USB cable, made by Lighthouse, will illuminate your workspace with precision.

This compact and powerful rechargeable light featuring a dimmable COB LED with a versatile range of 1100-350 lumens.

This light is designed for trade use, providing you with the brightness you need for any job.

The light has a compact fold flat design, but when in use has a 6 hour runtime.

The 50M beam distance light, IP54, with a 1M impact resistance.

Whether you're working on a construction site, exploring the great outdoors, or simply need a reliable

light source, this Portable Rechargeable Light is your go-to solution.

Don't let dimly lit spaces slow you down – brighten up your world with Lighthouse' new powerful and versatile lighting companion. Give it a go, it will not disappoint.
