Specifications

XMS24SHOVEL Roughneck Gorilla Micro Sharp Edge Shovel

The XMS Gorilla Micro Shovel comes with a Pointed Head with sharp serrated edged heavy-duty carbon steel blade.

Just what you need when the going gets tough so, if you have this Roughneck shovel, the tough get going breaking the toughest of ground.

Another tool at a large XMS saving.

This Roughneck shovel, at an overall length of only 685mm (27in), is perfect for digging and shovelling in confined spaces.

Its steel reinforced Power Ring socket offers "Gorilla" like strength of much larger shovels with the convenience of a shorter length shaft.

With a lightweight, fibreglass shaft with a full-size double-injected D grip handle for comfort in use.

Specifications:

Blade Width: 150mm

Overall Length: 685mm (27in).
