Specifications

XMS24SLEDGE Roughneck 1.4Kg (3lb) Gorilla 1.4kg / 3LB Sledgehammer

The XMS Gorilla Mini Sledge Hammer at 1.4Kg (3lb) is precision-forged by Roughneck from high-carbon steel.

Each sledge hammer features a unique dome-shaped striking point for exerting concentrated striking force.

They also have a larger-than-normal striking face with chamfered edge for general use.

Both of these striking faces are induction heat-treated for hardness.

The hammer each feature a side striking face which is not hardened and is designed for striking wooden posts.

A shock-absorbing TPE grip handle is designed for maximum comfort

This Gorilla Mini Sledge Hammer has the following specifications:

Weight: 1.4kg (3 lb)

Length: 345mm (13.5/8in).
